

# Hypercom® S9 and S9C PIN Pads

1SOURCE

POWERED BY FIRST DATA  
SUPERIOR SOLUTIONS. INFINITE POSSIBILITIES.™

The Hypercom® S9 and S9C PIN pads feature Hypercom plug-and-play software, enabling a quick connection to any Hypercom T7 series terminal for PIN secured debit enablement.

Both PIN pads are customer-friendly hand-over units, and the S9C also features an integrated card swipe for customer activated transactions.

## SOLUTIONS SHEET

Hypercom® S9 and S9C PIN Pads  
Ergonomic hand-over PIN pad units for PIN secured debit transactions.

### WITH THE S9 OR S9C PIN PAD, YOU CAN:

- ACCEPT PIN SECURED DEBIT PAYMENTS AT THE POINT OF SALE
- INCREASE CUSTOMER PIN SECURITY THROUGH USE OF A HAND-OVER SOLUTION
- ACHIEVE COMPLIANCE WITH LATEST SPECIFICATIONS FOR PIN ENTRY DEVICES
- OFFER SECURE, CUSTOMER-INITIATED TRANSACTIONS (S9C ONLY)

## FULLY COMPATIBLE

The S9 and S9C PIN pads replace all previous Hypercom PIN pad models, including the S7 and S8 families. The S9s are compatible with all Hypercom T7 series terminals and are VISAPED, 3DES and EMV4.0 approved. The S9 models also support DUKPT encryption technology.

## USER-FRIENDLY

- The easy-to-read user interface has an illuminated display and oversized colored OK and CANCEL keys
- The S9C model features an integrated card-swipe for consumer-activated transactions that do not require cashier assistance and allow your customer to keep their card in hand at all times
- The easy-to-hold, ergonomic design fits comfortably in customers' hands
